TOURISM AND FILM MARKETING PLAN

1995-1996 EXECUTIVE SUMMARY

Montana's tourism and recreation industry grew rapidly in the previous five years, and today it is considered among Montana's top three basic industries. This fact reinforces the importance of our marketing efforts, as well as the responsibility we have to protect and enhance the treasures we want to share with the rest of the world.

Travel Montana's mission is to strengthen Montana's economy by seeking to increase non-resident travel, and motion pictures and commercials filmed in Montana. This mission is acted on by promoting the state as a vacation destination, advocating responsible development of the Montana vacation product and marketing Montana as a film location.

MARKETING OBJECTIVES

Travel Montana's programs are intended to accomplish objectives which balance the goals of meaningful growth, responsible development and cooperation with others in the state who have an interest in Montana's tourism industry. These seven marketing objectives were developed in our five-year marketing plan (FY 1994 through FY 1998) and continue to guide Travel Montana's activities.

MONTANA TOURISM UPDATE

1994-1995

TOURISM'S ECONOMIC BENEFIT

Travel industry growth during the previous decade has outpaced all other natural resource-based basic industries in Montana. That pace continued in 1994 when a record 7.7 million visitors spent an estimated \$1.2 billion in Montana, an increase of 6% over visitor expenditures made in 1993.

1994 Visitor Expenditures by Quarter

Total:	\$1.2 billion	
Fall:	\$148 million	— 13%
Winter:	\$279 million	— 24%
Spring:	\$541 million	— 45%
Summer:	\$207 million	— 18%

How Visitors Spend Their Travel Dollar

Retail Sales:	\$326 million	— 28%
Food Service:	\$319 million	— 27%
Lodging:	\$220 million	— 19%
Gasoline:	\$210 million	— 18%
Other:	\$ 88 million	— 7%
Transportation:	\$ 12 million	— 1%

Visitor expenditures circulate through a broad cross-section of the Montana economy as shown above. Considering the indirect and induced impacts related to visitor spending, the total impact of tourism to Montana in 1994 is estimated at \$2.5 billion.

TOURISM AND RECREATION RELATED JOBS

Non-resident visitor expenditures sustained an estimated 59,000 jobs in 1994, indicating an employment growth rate of 4% for the past year. Travel payroll earned by Montana workers reached an estimated \$728 million, an increase of 6% over 1993.

CONTRIBUTION OF MOTION PICTURES AND COMMERCIALS FILMED IN MONTANA

Aside from the exposure gained when Montana is featured in movies and commercials, significant economic impact is generated from this activity. In 1994 millions of dollars were generated by over 70 productions which included location filming in Montana.

SUPPORT FOR TOURISM DEVELOPMENT AND INDUSTRY COOPERATION

One of the main goals of the strategic plan was to redirect some of Travel Montana's resources (financial and staff) towards the appropriate development of Montana's tourism related infrastructure. Programs that have been developed include:

- Rural Tourism Assessment and Development
- Tourism Infrastructure Investment Grants
- Superhost Customer Service Training
- Visitor Information Center funding
- Creation of a new Indian Tourism specialist position
- Funds for state park operations and maintenance, capitol tours, and historic rehabilitation, and support for the states trade program.

In addition, the Tourism Advisory Council has moved to equalize the distribution of marketing funds to less traveled areas of the state's by redirecting regional distribution.

Currently, over 18% of accommodations tax collected is directed towards infrastructure needs in Montana.

TOURISM FUNDING

Our state's dramatic tourism growth since 1988 is directly tied to the Montana Legislature's creation, in 1987, of a dedicated accommodations tax. Montana funds its travel and tourism marketing programs solely from this source, **with no dollars from the general fund**. The existence of this funding, and the valuable promotional efforts it has allowed, are essential to maintaining and increasing tourism growth into the future, with widespread economic benefits to all Montanans.
